

# ANDREW TALBOT

1716 Wake Forest Dr., Richmond, VA 23226 • (516) 306-0235 • andrew.talbot@richmond.edu

## WHO I AM.

I have a broad and growing set of skills that I employ to solve problems and improve existing workflows. Currently, I am a student pursuing a post-baccalaureate certificate in Computer Science. I am also a part-time developer/analyst at Capital One, where I build internal web apps, workflow automation scripts, and analytical solutions. I write code in JavaScript and Python on a daily basis, and I love building web apps with Vue. In fact, this resume is built with Vue!

---

## WHAT I'VE DONE.

- |   |                       |
|---|-----------------------|
| <u>Risk Management Developer/Analyst</u> (part-time) @ <b>Capital One</b> – Richmond, VA  | NOV. 2017 – PRESENT   |
| » Develop web apps, automation scripts, and analytical solutions for internal clients based on requirements.  |                       |
| » Use git for managing versions on all projects.  |                       |
| <u>Developer Intern</u> (part-time) @ <b>Think of Us</b> – Richmond, VA   | OCT. 2017 – FEB. 2018 |
| » Contributed to the front-end development of the Think of Us web app using Knockout.js.  |                       |
| » Used git for collaboration and managing versions on all projects.   |                       |
| <u>Paralegal</u> @ <b>McGuireWoods LLP</b> – Richmond, VA   | NOV. 2015 – OCT. 2017 |
| » Supported a team of 14 attorneys representing major energy utility companies in state regulatory matters.   |                       |
| » Completed large and complex projects in connection with ongoing litigation, including two multi-billion dollar utility company mergers and 10+ evidentiary hearings.  |                       |
| » Provided technical support and creative solutions for the regulatory team, including tools written in JavaScript that provide court document search and automated notification capabilities that were not previously available. |                       |
| <u>GIS Technician</u> @ <b>Department of Geography and the Environment</b> – University of Richmond, VA   | OCT. 2015 – NOV. 2015 |
| » Conducted spatial analyses and composed maps for research on women's empowerment in rural Uganda..  |                       |
| » Supported faculty and staff with GIS classes and other research.  |                       |
| <u>Bonner Scholar/Student Coordinator</u> @ <b>Bonner Center for Civic Engagement</b> – University of Richmond, VA  | OCT. 2011 – JUL. 2015 |
| » Edited and published 26 student presentation videos and an additional compilation video for the Center.   |                       |
| » Served as a Senior Intern for the Bonner Scholars Program and led all 13 communications projects.   |                       |
| » Designed and launched a website to educate students about city government and participation.  |                       |
| » Developed a revamped curriculum for the Bonner Scholars program focused on social justice and citizenship.  |                       |
| » Organized and promoted civic engagement and social justice-themed events in downtown Richmond.  |                       |
-
